HOW TO HELP A FRIEND

Believe your friend. Don't judge or question the victim's choices.

Expect a range of emotions, including lack of emotion and shock.

Be patient. Allow your friend to move through the recovery process at his/her own pace.

Encourage him/her to seek help. You can walk with him/her to Campus Police, Counseling and Psychological Services, or Student Health Services. Realize your friend has to be the one to make the decision to seek help.

Be a friend, not a bystander. Get involved if you see someone at risk. You might save a friend from being a victim of sexual assault.
