2019 Taulbee Part 1 - Salary

A. Preliminary Questions

IMPORTANT: Do not use your browser's Back or Forward buttons without first saving your work or you will lose any data entered since the last save. Save your work by hitting one of the SAVE buttons at the bottom of each survey web page.

1. Salary reporting preference

Your answer to the following question will customize the survey for you.

How will you be reporting faculty salaries?	<input checked="" type="radio"/> Individual salaries <input type="radio"/> Summary salary data
---	--

2. Total number of full-time equivalent (FTE) tenured and tenure-track faculty as of Fall 2019. (Count only faculty engaged in computing, e.g., in an EECS program, omit faculty who are EE-only, if separable. This question is included in the salary part of the survey to allow salary reporting by department size groups.)

	Fall 2019
Total tenured and tenure-track faculty FTE	36.00
Total Teaching Professors	16.00
Total Other Instructors	1.00

3. Salary benchmarking preference

Salary benchmarking allows you to compare your unit's salary data with a peer group of your choosing. In order to use the salary benchmarking feature, you must grant permission for your unit's salary data to be used if others want to include your unit in their peer group. Use of your data in benchmarking will not reveal your individual unit data; other units can see only aggregates of at least 8 academic units.

If you do not grant permission, your data will only be used in developing general statistics for published Taulbee reports.

Do you allow your salary data to be used in benchmarking?	<input checked="" type="radio"/> Permission granted <input type="radio"/> Permission not granted

University of Virginia (CS) 2019 Taulbee Part 1 - Salary

B. Faculty Salaries (individual level reporting)

Directions

- Canadian Schools: 12-month salary in Canadian dollars
- U.S. Schools: 9-month salary in US dollars
- Use salaries effective January 1, 2020.
- Include pay supplements associated with teaching and research; do not include administrative supplements or summer support.
- For assistant professors and the non-tenure-track ranks, there is a space to check if the person is new to the academic unit and a new Ph.D. Check yes only if (1) the person is new to the academic unit this academic year (since June 30, 2019), and (2) the person received his/her Ph.D. the previous academic year (after June 30, 2018).
- For full and associate professors please indicate the year they were promoted to their current rank.
- For teaching professors and other instructors, please indicate the year they began teaching at your Institution.
- Download PDF defining new Teaching Faculty categories (Teaching Professors and Other Instructors).
- Click a column heading to re-sort the table on the values of the clicked column. Re-clicking a sort column will reverse the order.

You may add rows without saving between each. Hit Save button when ready to leave the page. It is always safer to save your work periodically. It takes no time!

<u>Internal Reference</u>	<u>Rank</u>	<u>Year (See directions in red above)</u>	<u>Salary</u>	<u>Check if New to Dept & New PhD</u>
	Full Professor	2005	385,200	
	Full Professor	1990	241,575	
	Full Professor	2002	228,975

	Postdoctorate		48,750	Yes
	Postdoctorate		46,500	No

58 Incumbent(s)

University of Virginia (CS)

2019 Taulbee Part 1 - Salary

C. Doctoral Student Stipends and Adjunct Rates

Canadian schools, provide figures in Canadian dollars.

1. Doctoral Student Stipends

Provide the total (not monthly) average amount (as of fall 2019) of an academic-year stipend for a first-year doctoral student (amount of stipend minus any allowances for tuition, registration, and other fees, if they are included in the stipend and the student has to pay them; do not include the value of tuition waivers). Include base salary only, not signing bonuses, conference travel, or other income. If you have no assistantships of a particular type, leave the stipend blank; do not enter zero.

	Average Stipend	Prior Year
a. Teaching Assistants	21,640	20,600
b. Research Assistants	21,640	20,600
c. Full-Support Fellows	21,640	20,600
d. Graduate Assistants for Computer Systems Support	21,640	20,600

2. Adjunct Teaching Rates

What is your standard per-course dollar rate for an adjunct teaching a 3-credit semester undergraduate or graduate course or equivalent, with highest degree of MS equivalent or PhD? (Canadian schools, provide in Canadian dollars). If you don't have MS-level adjuncts, leave blank, do not enter zero.

	Undergraduate Course	Graduate Course
a. With PhD		
b. With MS	10,000	

3. Factors Affecting Adjunct Per-Course Rate

	Yes	No	
a. Time at your institution	X		
b. Special expertise	X		
c. Other (specify to right)		X
