## 2022 Taulbee Part 1 - Salary

### A. Preliminary Questions

---

IMPORTANT: Do not use your browser's Back or Forward buttons without first saving your work or you will lose any data entered since the last save. Save your work by hitting one of the SAVE buttons at the bottom of each survey web page.

#### 1. Salary reporting preference

Your answer to the following question will customize the survey for you.

How will you be reporting faculty salaries?	<input type="radio"/> Individual salaries <input checked="" type="radio"/> <b>Summary salary data</b>
---	--

2. Total number of full-time equivalent (FTE) tenured and tenure-track faculty as of Fall 2022. (Count only faculty engaged in computing, e.g., in an EECS program, omit faculty who are EE-only, if separable. This question is included in the salary part of the survey to allow salary reporting by department size groups.)

	Fall 2022
Total tenured and tenure-track faculty FTE	33.53
Total Teaching Professors	16.00
Total Other Instructors	1.50

#### 3. Salary benchmarking preference

Salary benchmarking allows you to compare your unit's salary data with a peer group of your choosing. In order to use the salary benchmarking feature, you must grant permission for your unit's salary data to be used if others want to include your unit in their peer group. Use of your data in benchmarking will not reveal your individual unit data; other units can see only aggregates of at least 8 academic units.

If you do not grant permission, your data will only be used in developing general statistics for published Taulbee reports.

Do you allow your salary data to be used in benchmarking?	<input checked="" type="radio"/> <b>Permission granted</b> <input type="radio"/> Permission not granted
